PROFESSIONAL SUMMARY

Full-Stack Software Engineer with **1.6+ years** at a globally acquired tech firm, specialising in **Java, Spring Boot, ReactJS, Microservices, and cloud-native architecture (Docker, Kubernetes, AWS)**. Delivered **6+ RESTful APIs and event-driven pipelines**, achieving a **20% reduction in API response time** and **35% increase in Agile delivery velocity**. Holds a **Master of Information Technology** from Monash University.

EXPERIENCE

Blume Global Pvt Ltd (Acquired by WiseTech Global)

Software Engineer

Bangalore, India

August 2022 - January 2024

Shipment Creation (Master Business Entity):

- Designed and implemented **6+ RESTful APIs in Spring Boot** for shipment lifecycle management, reducing average API response time by **20%** through optimised query structuring.
- Built reusable **ReactJS components with Redux** for centralised state management, improving rendering consistency and eliminating prop drilling across **8+ nested components**.
- Containerised the application stack using **Docker** and established **Jenkins CI/CD pipelines**, enabling consistent environment parity across dev, staging, and production.

Data Uploader (Bulk Shipment Creation):

- Designed an **event-driven microservices pipeline using Kafka and Kubernetes**, enabling asynchronous inter-team communication and horizontal scaling under peak shipment loads.
- Drove a **35% increase in Agile delivery velocity** by owning cross-functional dependencies and resolving **delivery blockers** through early stakeholder alignment.

EDUCATION

Monash University, Melbourne, Australia

Masters of Information Technology

February 2024 - December 2025

Bangalore Institute of Technology, Bangalore, India

Bachelors in Computer Science and Engineering

August 2018 - July 2022

TECHNICAL SKILLS

Languages: Java, JavaScript.

Backend & APIs: Spring Boot, RESTful APIs, GraphQL, Microservices, Event-Driven Architecture, MVC.

Databases: MySQL, PostgreSQL, Firebase Firestore, Room, Redis.

Cloud & DevOps: AWS (EC2, S3), Docker, Kubernetes, Jenkins CI/CD, GitHub Actions, Apache Kafka.

Certifications:

- React: The Complete Guide (React Router & Redux) - Udemy, 11/2023
- Spring Boot 3 & Spring 6 with Hibernate - Udemy, 2023

ACADEMIC & RECENT PROJECTS

BlueHaven | Java, Relational Database, Vue.js | <https://blue-haven.app/#/>

August 2025 - October 2025

- Developed a full-stack web application aligned with UN Sustainable Development Goals (SDGs), educating households on everyday water pollution habits.
- Designed and implemented **RESTful APIs in Java** for core backend logic and data processing, backed by an optimised **relational database schema**, and built a dynamic **Vue.js frontend** consuming APIs to manage end-to-end data flow with accurate UI rendering.

Bus Booking System | React.js, Spring Boot, REST APIs, SQL

August 2022 - November 2022

- Developed an end-to-end bus booking system with a **Spring Boot backend**, implementing **RESTful APIs** and an optimised **SQL database schema** for bookings, routes, and user profiles, and built a responsive **React.js frontend** enabling profile creation and real-time route search by date and time.
- Implemented **concurrent booking handling** with real-time seat availability updates, preventing double bookings when multiple users attempt to reserve the same seat simultaneously.
