PROFESSIONAL SUMMARY

Full-Stack Software Developer with nearly 4 years of experience designing and developing scalable **Java** applications across **logistics** and **NDIS service** domains. Strong expertise in **Spring Boot**, **ReactJS**, **Microservices**, **Docker**, **Kubernetes**, and **JUnit**, with proven experience delivering high-performance, secure, and reliable software solutions. **Completed a Master of Information Technology at Monash University.**

EXPERIENCE

Gencare Disability Services Pty Ltd

Melbourne, Australia

Software Developer

June 2024 - Present

- Developed and maintained **5+ backend REST APIs** using **Java**, **Spring Boot**, and **SQL** to support participant enquiries, service requests, and internal **NDIS workflow management**.
- Designed and improved **10+ responsive frontend screens** using **ReactJS**, **JavaScript**, **HTML**, and **CSS**, improving service visibility and user experience across desktop and mobile.
- Built and tested backend features using **JUnit** and **Mockito**, improving reliability across participant intake, contact forms, and service request workflows.
- Collaborated with business stakeholders to translate **NDIS service requirements** into practical digital features, improving enquiry handling, service navigation, and operational efficiency.

Blume Global Pvt Ltd

Bangalore, India

Software Engineer

August 2022 - January 2024

- Optimised backend performance by **20%** by designing and developing **6+ RESTful APIs** using **Java**, **Spring Boot**, **Microservices**, and **SQL** for shipment lifecycle processing.
- Built secure backend features using **JWT authentication**, **RBAC**, and service-layer validation, strengthening **API security** and workflow-level access control.
- Delivered scalable shipment workflows using **Apache Kafka**, **Docker**, **Kubernetes**, **ReactJS**, and **Redux**, supporting bulk uploads, asynchronous processing, and maintainable frontend screens.
- Improved product quality and delivery velocity by writing **JUnit** and **Mockito** tests, supporting **Jenkins CI/CD** workflows, and contributing to a **35% Agile delivery improvement**.

EDUCATION

Monash University, Melbourne, Australia

February 2024 - December 2025

Master of Information Technology

TECHNICAL SKILLS

Programming & Web: Java, JavaScript, SQL, ReactJS, Redux, Vue.js, HTML, CSS

Backend & Databases: Spring Boot, REST APIs, Microservices, GraphQL, MVC, MySQL, PostgreSQL.

Cloud, DevOps & Tools: AWS EC2/S3, Docker, Kubernetes, Jenkins CI/CD, GitHub Actions, Apache Kafka, JUnit, Mockito, Git, Postman

Certifications:

React: The Complete Guide - Udemy, 2023 | Spring Boot 3 & Spring 6 with Hibernate - Udemy, 2023

ACADEMIC & RECENT PROJECTS

BlueHaven | Java, Relational Database, Vue.js | <https://blue-haven.app/#/>

August 2025 - October 2025

- Developed a full-stack web application with **Java RESTful APIs**, an optimised relational database schema, and a **Vue.js** frontend to help households understand and reduce everyday water pollution habits.

Bus Booking System | React.js, Spring Boot, REST APIs, SQL

August 2022 - November 2022

- Developed an end-to-end bus booking system with a **Spring Boot backend**, implementing **RESTful APIs** and an optimised **SQL database schema** for bookings, routes, and user profiles, and built a responsive **React.js frontend** supporting real-time route search and concurrent seat booking handling.
